I. GENERAL INFORMATION

A. Background: The Centers for Medicare & Medicaid Services is directing the Fiscal Intermediary Shared System (FISS) to enhance its process for updating the ICD-10 file to yield a better performing structure. Currently, the annual update process starts with an empty Autodesk Inventor Assembly (IAM) file, loading new records via inserts into the file for all ICD-10 diagnosis and procedure codes. This change will allow the annual update of the ICD-10 codes to generate a properly structured FSSICDO IAM file.

B. Policy: This Change Request has no policy changes.
